

# Discover the Cascades PRO Tandem® Family

**Turning Heads  
Everywhere They Go**

# Save with the Cascades PRO Tandem Family

These lean, clean machines are sleek, innovative, and are equipped with handy features so that everyone can feel good.

## Hygienic

### Built for better hygiene

- Seamless finish with no more dirt-attracting corners.
- Textured finish for easier maintenance.
- No-touch guest experience.

### Performance right down the line

The Cascades PRO Tandem dispensers are 99,9% jam-free, fast and reliable.

## Durable

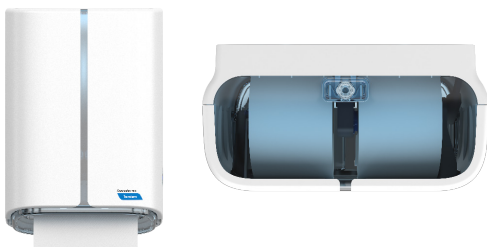

### Quick load technology

Color-coordinated dispensers and paper rolls for quick and accurate dispenser reloading.

### Quick-check design

Get an instant view of paper levels with a cleverly designed clear center-strip and clear top.

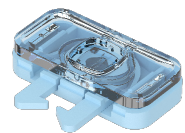

## Productive

### Locked & loaded

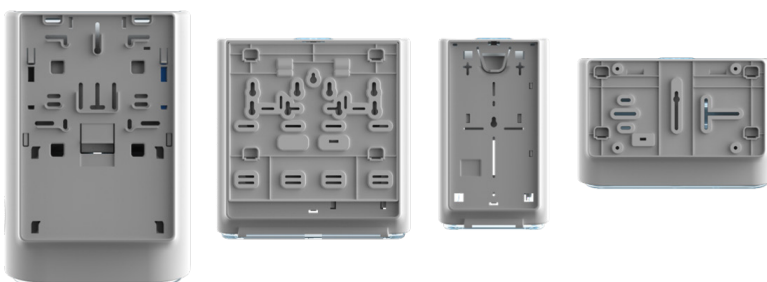

Same easy-to-find blue colored key for all Tandem dispensers.

Fast and simple key lock can be changed to a push-button with the slide of a finger.

### Universal housing

Back housing fits main competitors' configurations, maximizing installation speed and minimizing wall damage.

# Cascades PRO Tandem Hand Towel Systems

## Mechanical No-Touch Roll Towel Dispensers

### High performance

99.9% jam-free, fast and reliable dispensing ensures a feel good experience for custodial staff and guests.

### Zero-waste system

Use 100% of every roll and reduce waste with the stub roll function.

### Easy angled paper access

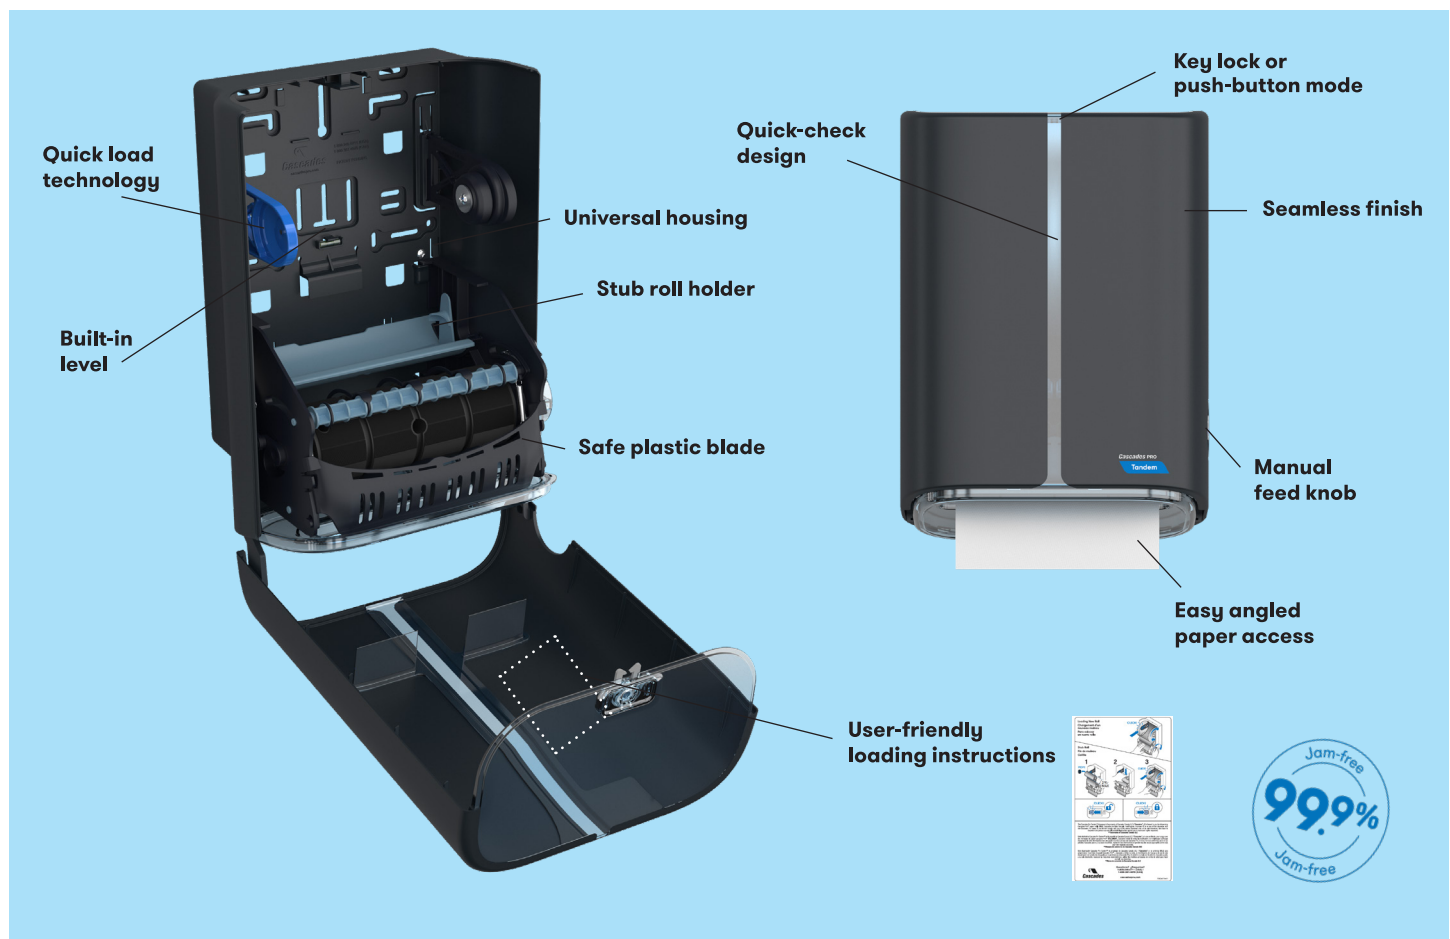

Angled paper exit allows an intuitive and natural paper grabbing movement.

CSDC340

CSDC345

# Electronic Roll Towel Dispensers

## High performance

99.9% jam-free, fast and reliable dispensing ensures a feel good experience for custodial staff and guests.

## Zero-waste system

Use 100% of every roll and reduce waste with the stub roll function.

## Smart and reliable sensor

Large sensor zone allows quick on-demand paper supply.

## Smart LED indicators

Save time and efforts to custodial staff thanks to smart LED indicators. The front facing LED light will blink when it's time to change the stub roll and the interior light will turn on when batteries need to be changed.

## Customizable settings

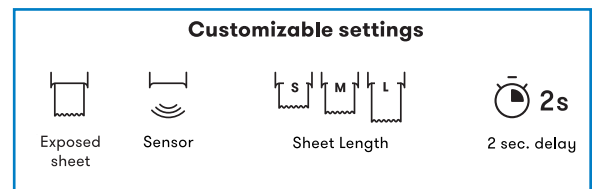

- Ready to meet the unique hygiene needs of every facility.
- Easy to reach, understand and change.
- Choose your preferred settings between exposed sheet or sensor mode, sheet length (S / M / L) and time delay (0 sec. / 2 sec.).

# Cascades PRO Tandem Toilet Paper Systems

## Jumbo Roll Toilet Paper (JRT) Dispensers, Single or Double Roll

### Smaller core size

Reduce waste and increase footage per roll.

### Reduced over-spin

Expertly designed spindle limits the amount of paper dispensed with each pull, minimizing waste, paper consumption and risk of toilet clogging.

### Safe tear

Eliminate risk of hand scratches and allow paper to safely tear in any direction.

### Zero-waste system

- Use 100% of every roll and reduce waste.
- Single JRT dispensers include a stub roll holder that helps gain 200' of paper when the stub roll is inserted at 4" diameter.
- Double JRT dispensers help manage roll consumption by preventing access to the backup roll until the first one is empty.

### Quick and intuitive loading

Non-sequential, hassle-free reloading.

# High Capacity Toilet Paper Dispensers, Top Bottom, Side-by-Side or Four Rolls

## Quick load technology

Quick and accurate dispenser reloading with color-coding system.

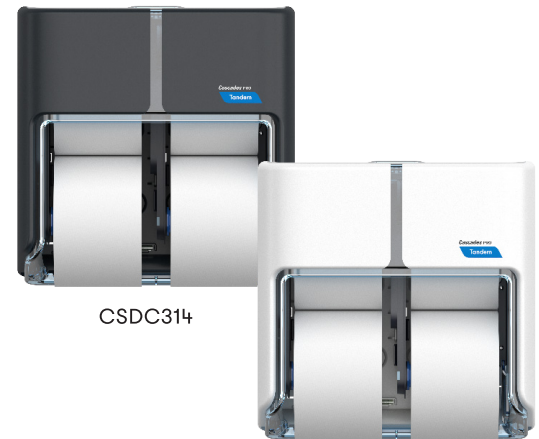

## Handy flip mechanism and split loading

- No loading sequence, less frustration and no moving parts to handle.
- Handy flip mechanism allows custodial staff to quickly and easily move the backup roll into dispensing position and load a second roll at the top.

## Reduced over-spin

- Limit the amount of paper dispensed with each pull.
- Reduce paper consumption, waste and risk of toilet clogging.

## Did you know? Hand dryers spread germs, unlike paper hand towels.

Numerous studies conclude that paper towels are the most hygienic choice for hand drying. Cascades PRO Tandem hand towel systems feature touchless dispensing - a smart way to promote hygiene and reduce bacterial transmission.

**Up to  
+ 414%  
bacteria**

on fingers pads after drying.  
Bacteria spreads up to 1,6 feet.

**Up to  
- 91%  
bacteria**

on fingers pads after drying.  
No spreading of bacteria.
